Unique features of the programme:

- Inexpensive—128 pages of work for \$15.95
- Written by experienced Mum and teacher who used the same method with her own children.
- Teaches all the sounds from the basic single sounds to the double and multiple sounds.
- Each sound is keyed to a picture and many visual exercises are included to help young and visual learners.
- Is easy to use. Written with step by step instructions so that even an inexperienced mother can follow easily.
- Guided printing so material is suitable for use in all states.
- Combines single sounds quickly so that within eight sounds the child can read a simple paragraph and at the end of twenty six single sounds the child can read a whole page.
- Reading is included in all books after the first eight units. The reading includes only those sounds the child has learnt.
- Teaches all the rules of spelling, e.g. f, l, s, z is doubled after a short vowel.
- Has quick reference sound charts on front and back cover. These can be displayed later.
- Has a quick reference guide for rules.
- Plenty of extension work is given. Each unit has enough work for at least a week.
- Can be started at any level. Guides inside each book indicate what skills are necessary prior to commencement of each book.
- Can be used by any child from the gifted to the slow learner.
- Answers are included in all books.
- Contains all instructions necessary.
- No extras. All work, including reading, is included.
- It is suggested that with small children the first five books are completed prior to beginning other subjects. Easy-learn Maths Preschool/Kinder A to Easy-learn Maths 2A may be completed at the same time.
